Proceedings of Legislature

By T. B. Windsor

During the week that has just passed, the big guns of the government and the opposition have been placed in position for the biggest drive of the session. Thursday afternoon Premier J. E. Brownlee presented to the legislature an outline of all the transactions in connection with the guarantee to the wheat pool and the financial liability of the government in connection therewith.

He disclosed the fact that in September last the wheat pools owed the banks the tremendous sum of \$68,000,000. In addition to this statement, the outline of Premier Brownlee's statement to the legislature may be briefly summed up as follows:

The Alberta government has granted the lending banks prior claim on the assets of the Alberta Wheat Pool Elevators Limited.

The pools traded in wheat and required advances of \$661,000 to protect their "long" position.

The Alberta government agreed that for nearly two months sales should be allocated on the basis of 25 per cent. 1929 crop and 75 per cent. 1930 crop.

The pools undertook on November 16, 1930, to install as soon as possible, a general manager acceptable to the lending banks, and agreed that he should act at least until such time as the balance of the 1929 and the 1930 crop was disposed of.

These disclosures were made to the house when Premier Brownlee sought its agreement to the second reading of the bill to validate the provincial guarantee to the banks of loans to the wheat pools.

In summing up the effect of the action taken by the Alberta government in connection with the wheat pool guarantee, Premier Brownlee declared that a panic was averted, the investment of 40,000 farmers in Alberta, alone saved, and the markets sufficiently stabilized so that agricultural industry in the west was snatched from the brink of catastrophe.

At the same time, the premier declared, the provinces had reached the limit to which they can go in the matter of guarantee and if any further guarantee was required it must be done by the federal government. The only other alternative to the plan followed and suggested by the government, he said, was the nationalization of all wheat marketing pools must be enabled to function unless this alternative is accepted.

In giving the contingent liability of the Alberta government in connection with the wheat pool, Mr. Brownlee gave the information that it would be \$5,555,000. This contingent liability of the government, the premier said, was secured by the Assets of the Alberta Wheat Pool and the Alberta Wheat Pool Elevators Limited, which are estimated at \$9,494,000.

There was a feeling among Liberal members of the opposition that these securities should be subject to investigation and a motion made by H. J. Montgomery, Liberal, of Wetaskiwin, was presented and turned down by the house. Mr. Montgomery's motion was for a valuation to be made of the securities by an independent appraisal. The government objected to this and as a result the appraisal will be made, but on the basis of a report by the provincial auditor based on the certified balance sheets of the pools.

The debate on the pool guarantee was adjourned Friday night by Geo. H. Webster, Liberal Leader, who on Monday afternoon will reply to Premier Brownlee and offer the Liberal party's official criticism of the action taken by the government.

It is forecast that Mr. Webster will lay a large part of the blame for conditions that necessitated the guarantee on the management of the wheat pool in the past. There is a tendency in some quarters to consider the policy of marketing the 1929 crop was a mistake one in the first place and that the wheat pools should have been prepared more than they were for conditions that ensued in 1930.

During a discussion of the policy of the government is regard to the Lethbridge Northern Irrigation project, which took place Saturday morning during the committee stage of the house, Hon. Vernon Smith, announced that steps will be taken by the government during the coming summer to put into effect recommendations contained in the Wilson report on this project and similar projects in the province.

Geo. H. Webster, Liberal leader, took occasion to launch an attack on James Pike, manager of the Lethbridge Northern scheme.

ion government that the agricultural industry of western Canada, with its establishment of prices or by careful examination of the incidence of the tariff schedule, be placed on a parity with other industries in Canada, in order to assure that the economic interests of the farmers of western Canada be adequately and justly safeguarded.

The passage of the amended motion came at the conclusion of a debate that lasted all afternoon and part of the evening and which awakened much interest in the vicinity who have not as yet been able to see it.

It seems certain now that the anti-bill petition which was presented to the legislature will get a year's hold. No definite action is anticipated until the private bills and standing orders committee, to which the question was referred, holds its third meeting on Monday. Attacks on the legality of the petition because of insufficiency of names to bring the document within the requirements of the standing orders act have been made. The prohibition element has countered that 50,000 names constitute a sufficient body of public opinion to warrant the petition being acted upon. The fate of the petition will be decided probably on Monday night.

Blackfalds Hap penings

The Peace Essay Contest closed Friday night with the reading of the prize essays and the awarding of prizes. The Church Hall was well filled, over a hundred being present.

The winners were: Grade 9, 1st, Vance Capron; 2nd, Doris Miller; 3rd, Mildred Miller; Grade 10, 1st, Roberta Fackler; 2nd, Mable Bennett; 3rd, Elizabeth Bennett; Grade 11, 1st, Henrietta Miller; 2nd, Catherine Fackler; 3rd, Annie Miller. To the winners of first prizes were given each an Evening Star pencil; to the winners of 2nd prizes, each a pair of silk stockings; to 3rd prize winners Mildred Miller a copy of David Grayson's "Adventures in Understanding"; Elizabeth Bennett, a Suede underarm bag, and to Annie Miller, a box of writing paper. A treat of ice cream was given to all of the winners. Out of town guests were Mrs. Reid and Lorraine from Edmonton, and Mrs. Ausley, the Principal's mother and his aunt and uncle, Mr. and Mrs. Fox, of Killam.

On Friday night next in the Community Hall will be staged "Yimble Kenson's Yeh" by local talent. The school is planning to give the play at Sylvan Lake on Wednesday night and at Joffre on Saturday night.

A concert and play will be given at Spruceville Hall on Thursday night, April 2nd, at 8 p.m. The following programme is being prepared:

Opening: "O, Canada". Solo, Laurence Proudfoot. Solo, Mrs. Lukens (Canada Junior College). Reading, Mrs. Morsch, Bentley. Male Quartette, Canada J. College. Hawaiian Guitar Selection, Irville Roach, (Canada Junior College). Play "It Can't Be Done," Spruceville Dramatic Club. Duet, Misses Nelthorpe and Fisher, (Canada Junior College). Reading, Mrs. Morsch. Solo, Mrs. Lukens. Hawaiian Guitar Selection, Irville Roach.

The induction of the recently appointed Elder, Mr. J. Crocker, will take place next Sunday morning at Spruceville service, followed by the sacrament of the Lord's Supper. Sunday School at 11:15 service following.

Meadowbrook News

Born to Mr. and Mrs. Carl Anderson, of Red Deer, on March 2nd, a daughter.

Chris, Hubert completed sawing lumber at Mr. Rowland's last Saturday.

Wesley Wiles, our new Municipal Councillor made a tour of the district last week.

The Meadowbrook Ladies' Aid met at the home of Mrs. Herbert Long last Wednesday afternoon. A number of ladies were present and indications point to renewed activity. The next meeting will be held at the home of Mrs. Herbert Riley on April 11th.

The Social Evening Club met at the home of Mr. and Mrs. John Carlson, Saturday evening, March 14th. Those present to the number of 60, spent an enjoyable evening at dancing. The next meeting which will be the annual one, will be held at Chris Anderson's on April 4th. Everyone desirous of enjoying a long and pleasant evening, should be there.

The infant daughter of Eddie Miller died in the Lacombe Hospital, of pneumonia, last week. Funeral services were held on Friday and interment made in the local Norwegian cemetery.

A surprise party sponsored by the Social Evening Club was held on Mr.

and Mrs. Joe Heath on March 15th, at their home. The attendance filled the house to its capacity, but everyone seemed to have a great time. Watch for another one soon.

Mrs. Erskine Taylor has now returned home with her baby daughter, born in Lacombe, March 1st.

The Hendersons and Lincoln boys put on their Minstrel Show in Lincoln Hall, March 6th. The same performance, by request will be put on in the hall at Rimby, Friday evening, March 27th. This is the opportunity for all of you in the vicinity who have not as yet been able to see it.

A pleasant evening at cards was enjoyed last week at the home of Mr. and Mrs. John Savre. Ladies' prizes were awarded to Miss Edith Pearson and Mrs. Otto Pearson; and to Otto Pearson and Willie Savre, for the gentlemen.

Mr. and Mrs. Clarence Kasha, of Spruceville visited Mr. and Mrs. Herbert Long last Sunday.

STATE RIGHTS OF WOMEN TO BE CLARIFIED

First reading was given in the House of Commons to a bill designed to amend the Naturalization Act. Hon. C. H. Cahan explained several anomalies existing under present conditions.

As the laws of Great Britain and the Dominion had it, the wife of a British subject was deemed to be British, while the British-born wife of a foreigner assumed the nationality of her husband.

This did not operate well, as in the United States, a woman not of American birth, marrying a United States citizen was not by virtue of her marriage admitted to United States citizenship. She continued to be regarded in that country as a foreigner.

Consequences were that hundreds of women in Canada, having forfeited their Canadian citizenship by marrying Americans, and at the same time, not being accepted by the United States as American citizens, were without a country, and unable to secure passports.

Recommendations for the correction of this situation had been made at the Hague convention of 1930, and it was recommended that the present Bill be introduced.

LESS COAL BEING USED IN CANADA

Coal consumption in Canada has decreased approximately 3,500,000 tons in the past year. Statistics now available show the quantity of coal made available for the consumption in 1930 was 31,854,800 tons, as compared with 35,278,633 tons the preceding year.

This decrease is due to several causes, one of which is the increased use of electricity and to the increased use of waterpower in the generating of the electricity.

It is estimated electric power has displaced the consumption of coal in Canada to the extent of 14,500,000 tons in 1930. This estimate is based on the average coal consumption per kilowatt hour of all public utility electric power plants in the United States during 1929, which places the equivalent of coal to electricity as 1.60 pounds of coal per k.w.h. With consumption of coal last year shows a decrease, the output of central electric generating stations has increased from 18,014 million kilowatt hours in 1929 to 18,256 in 1930. The large stations, generating approximately 86 per cent. of the total electrical output, generated only 302 million kilowatt hours by steam power in 1930, as compared with 331 millions in the preceding year.

IRRIGATION LOSSES SEEN BY WEBSTER

"Evidence contained in the Wilson report on the Lethbridge Northern convinces me that this project will require a complete and absolute loss of between three and four million dollars to the province," declared George H. Webster, Liberal leader, in the legislature, Friday afternoon.

The irrigation scheme entered the discussion, while a motion by W. R. Howson, Liberal, Edmonton, urging independent appraisal of the position of the government-guaranteed dairy pools was being considered.

In presenting an amendment advocating this course by the provincial, D. M. Duggan, Conservative leader, maintained the Howson motion did not go far enough and that the probe should be extended to cover all activities to which government guarantee had been made.

Continuing, Mr. Webster maintained that the government was in business and the auditor should be able to show the position of any activity at any time.

How much better would the house be with this information, even if it could be secured without expenditure of many thousands of dollars, Premier Brownlee wanted to know. Nobody was qualified to give more than a guess as to the standing of the Lethbridge Northern, and it was beyond all reason, he thought to ask for such an investigation.

CANADIAN LEGION

The quarterly meeting of the Canadian Legion will be held in the Town Hall, on Saturday, March 28, at 8 p.m. All members and ex-service men are urged to be present—important business to be transacted.

DRAWS SIX MONTHS HARD

Possibly having listened to Geo. Brownlee's address on the scarcity of money, and the fallacy that this state of affairs was necessary, James Davidson, of Stettin, set out on Saturday last to relieve the monetary condition of Lacombe, and show the people that money scarcity was a myth. He called on the Banker store on Railway St., and after making a few purchases asked for a check on the Bank of Montreal at Rimby. He made out the check for the amount of the purchases, plus a safe margin of cash, which the manager in charge handed him. He then carefully signed the name "James Davidson" to the check and departed. Manager White got wise quickly, and Chief MacDonald was called in. After getting a description of the customer, he was pretty well convinced that it was our old friend James Davidson, and called up Const. English, A.P.S., who after a short search took James into camp. He was up before Magistrate E. H. Jones on Monday morning and was sentenced to six months hard labor at the Fort.

AGRICULTURAL SOCIETY

A meeting of the Directors of Lacombe Agricultural Society was held in the Secretary's office on Saturday afternoon last, when the matter of revising the prize list was taken up. It was decided to increase the prize money in all cattle and horse classes. Belgian horses were discontinued from the list entirely. Some changes in the Directors in charge of various classes were made. F. Langrock will be director in charge of driving horses, in place of W. J. Sweet, who is removing from the district. Hugh Sharp replaced Stanley Sharp in the sheep division. H. Wilson, G. Barbour, A. Chiswell and P. A. Switzer will take charge of the hogs, and Stan Switzer, S. J. Henderson and J. Darroch will have charge of the cattle.

This year the Children's and Misses' Classes have been taken out of the Prize List and will be handled by the School Fair.

The matter of nominating candidates for the Master Farmer Competition as sponsored by The Nor-West Farmer was then brought up with the result that J. L. Walters, William Sharp, Thos. Henderson and A. W. Sharpe were put in nomination by Thos. Henderson, J. W. Bigland, Stuart Taylor and A. Belcher, respectively.

Evaporated Milk is
pure cow's milk from
selected herds. Truly
nourishing and twice
as rich as ordinary
bottled milk.

The Waste of Our Resources

Our government at Edmonton, having secured control of the natural resources of Alberta, proposes to do something to conserve them. The start in this direction is to be made in connection with gas waste in Turner Valley district. It is true this waste has been going on for years, but as the Dominion government was in control of resources nothing in particular was done about it. As custodian of the natural resources of the people of Canada, judging by its record with respect to this criminal waste, the Dominion government was a mighty slothful steward. It will be interesting to see how much more efficient the Alberta government will be. Gas waste in this province is a matter of great importance to the people. Where it is possible to utilize the gas for fuel purposes the province is a wonderful aid to domestic economy. Its value in industrial enterprise is beyond computation. Generally speaking it is one of most important natural assets of the province and one which, properly conserved, might conceivably serve the people for several generations to come. That we have been permitting its waste in such enormous quantities in the Turner Valley area for years is a serious reflection on our business acumen as a people and a condemnation of our governments, which are sworn to safeguard the natural resources of the country in the interests of posterity. However, it is not possible to saddle governments with all the responsibility. We are equally guilty.

At the outset the people were responsible for the opening up of this natural gas field. You remember the oil boom, both first and second ones in which had it not been for the common people, nothing at all would have happened. We all bought oil shares and dreamed of untold wealth rolling our way when the wells came in. Some of them did come in and to a comparatively small number of us certain wealth did accrue as a result. And it was in these early days we first heard protests about the waste of gas. It was in those early days, too, that there seemed to be a splendid answer to those protests. How could these wells be closed down to save gas when so much of the money of the people was sunk in them, never to be retrieved unless by separating and the sale of the naphtha. So the waste went on, more and more, more and more, in order that the money of the people might be saved. And right here I want to ask you whether your money has, as a result, been saved. You common people—what are your oil stocks worth today as compared with what you originally paid for them and how much have you collected in dividends on them? In the maze of mergers, reorganizations, etc., that have marked the progress of the Turner Valley, oil enterprise from its inception to date how do you, the common people, stand? Who or what interests control that field today? My guess is that general public interests in that field today, as compared with those same interests at the opening of the field, have virtually passed out of existence. So why worry unduly about something that really is not?

When you come to think, isn't there something very baroque in such extreme solicitation for the interests of the dear people when the same governments which manifest it have permitted the dear people's interests to be sacrificed in a whole-sale way in the unholy manipulation of stock promoters, company organizers, merger experts, etc.? It is to laugh! I am pleased to note that the Alberta government seems disposed to take a positive stand with respect to this gas waste, notwithstanding protests on behalf of the dear people. It seems to me the time has come when our legislators have a right to deal with the Turner Valley situation on a purely business basis. In the process of extracting naphtha from Turner Valley gas tremendous quantities of gas are burned in waste. So far as I have been able to make comparisons I do not believe the near presence of this naphtha field has brought lower prices for gasoline in Western Canada. If we add to the

price we are paying for gasoline the value of the gas wasted in its production, I am convinced we would conclude the whole affair was a losing venture for us as the original owners. But having permitted development of the field and the investment of much money in it, it is necessary that in any plan we may propose for gas conservation the capital investment shall be responsibly safeguarded. In other words having made a bad mess of things (meaning the safeguarding of the interests of the people in their natural resources) it is now up to government to salvage as much as possible from the wreck in Turner Valley. The salvage job has been handed over to the provincial government by the Dominion authorities whose inefficient and unintelligent management made the wreck possible. I am pleased to see the provincial government on the job and sincerely hope it will not let itself be turned aside from its first duty—preservation to the maximum limit possible, under the circumstances of the people's rights in this most valuable resource.

"Observer" in Calgary Herald.

Wheat Pool Lost Over \$68,000,000

Amounts of over \$68,000,000 were owed to Canadian banks by Canadian Co-operative Wheat Producers, Ltd., (the Western Wheat Pools) in Sept. last.

The Pools traded in wheat and required advances of \$66,000,000 to protect their "long" position.

Losses of the Alberta Pool will be about 60 per cent. of its assets. The Alberta Government agreed that for nearly two months sales should be allocated on the basis of 25 per cent. 1929 crops and 75 per cent. that of 1930.

The Pools undertook on November 15, 1930, to instal as soon as possible a general manager acceptable to the lending banks, and agreed that he should act at least until such time as the balance of the 1929 and the present 1930 crop are disposed of.

The Alberta government has granted the lending banks prior claim on the assets of the Alberta Wheat Pool and the Alberta Wheat Pool Elevators Limited.

Such were the disclosures made to the legislature Friday afternoon, when Premier J. E. Brownlee moved second reading of a bill to validate Provincial guarantee to the banks of loans to the Western Wheat Pools.

Attached to the rectifying bill itself were copies of correspondence and agreements which tell the story of negotiations between the banks and the province for financing the marketing of Prairie wheat crops.

They revealed that whereas under an agreement between the Prairie governments, the banks and Canadian Co-operative Wheat Producers Ltd., dated August 26, 1930, it was provided that sales of wheat should be apportioned equally as to value between the 1929 and 1930 crops. On November 6, 1930, this was changed to 25-75 per cent. basis in favor of marketing of 1930 grain.

They disclosed, too, that on November 15, 1930, it was agreed that all sales of cash grain by Canadian Co-operative Wheat Producers Ltd. should be allocated so far as possible to the 1930 crop. The one exception to this was that advances of \$21,000,000 made on November 14 and \$39,000,000 made on the following day to protect margins on the Wheat Pools' "long" position were to be properly chargeable against the 1929 crop, and that sufficient sales were to be credited to the 1929 crop to meet this condition.

It Puts an End to Oiling Worries

This "cut-away" view was prepared just to show you how efficiently the John Deere oils itself. That self-oiling feature is one of the big reasons for the steady power and long life of the

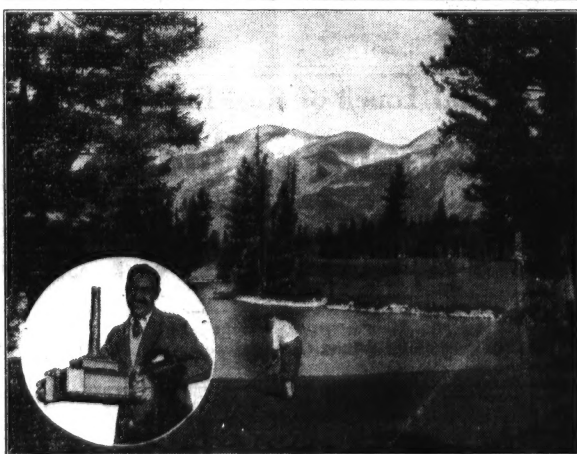

John Deere Type E Engine

The simple splash oiling system insures the thorough lubrication of every working part. Clean oil is kept circulating—every important working part is bathed by a spray of oil while the engine is in operation. Oiling is stopped automatically when the engine is stopped—no oil is wasted. Easy, easily forgotten sight-feed oil cups are done away with and friction,

one of the greatest of power thieves, is reduced to a minimum by this positive automatic oiling system. Come in and have us show you how efficiently the John Deere oils itself. Examine the simplicity of design and the sturdiness of its parts—the John Deere engine will do its work steadily and efficiently and will stand up under severe conditions on your farm.

Morrison & Johnston, Dealers

Mashies in the Mighty Mountains

It is the unusual that thrills in the Rockies. For instance, who would expect a championship golf course, raised as one of the world's finest, planted like an emerald in the rough bosom of the Rockies? Jasper Park Lodge links show new aspects of the mountains at every hole. Wild life in this sanctuary is unafraid and like as not a family of beaver will amble across the fairway as the golfer tees up. Inset in this scene, which shows a water hazard, is Gardner White, Vancouver, New York, holder of the Totem Pole trophy which is emblematic of the Lodge course championship.

Can't Praise it Enough, She Says

"A year ago the fine health I'd had all my life seemed to go to pieces," stated Mrs. Ellen C. Mathieson, 1848-18th Ave., Vancouver. "I

MRS. ELLEN C. MATHIESON

suffered terribly from dyspepsia, gas pressure, palpitation and bilious headaches. I was dreadfully run-down, and felt tired and worn out all day. From the moment I started taking Sargon I began improving. My stomach is in healthy condition and every last sign of my troubles is gone. The Sargon Pills regulated me perfectly, without discomfort or bad after-effects. I have a wonderful feeling of health and strength, and cannot praise the Sargon treatment enough for it."

Sold by McDermond Drug Co., Ltd., Lacombe, Alberta.

15 shots Quick as a wink!

This little Stevens sure throws 'em straight and hard, whether you're sighting on a scurrying red squirrel or into a bull's-eye.

And notice how smooth and easy she pumps! 15 shots, snappy as a trip-hammer. You can't beat the old Visible Loading for dead-end accuracy, because the barrel's bored like every Stevens barrel—scrapped so smooth that the final cutting removes less than 1/1000 of an inch. That slow, painstaking method gives an accuracy that lasts. And the same care is given to every little detail of every Stevens gun—examine that handsome finish—get the perfect balance as you toss her up. A Stevens is right, from muzzle to butt-plate. Finally—the price is right. So low as to be little short of amazing. Ask at your dealer's, or write us for full details of the Stevens line, rifles and shotguns.

Stevens "Visible Loading" is an accurate .22 caliber repeater. You know when it is loaded, and you know when it is empty.

ful object. Yet an additional, and perhaps more important, moral can be derived from these figures.

The statistics cited concern the United States, but one may apply the principle they illustrate alike to Canada and other nations. An article from the Minneapolis Journal was recently published on this page, in which the need for better physical breaks all around was stressed. The inability of the average motorist to synchronize with the moment, the half second his mental processes may be behind events when he is traveling over 36 miles an hour, may cost a life. Awareness of all possibilities on the part of the motorist does not exist at the present time, and until it does not exist cannot be anywhere near 100 per cent.

MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale, provided by "The Land Titles Act" under a certain mortgage which will be produced at the time sale.

There will be offered for sale by public auction in front of the Post Office in the Town of Lacombe, in the Province of Alberta, on Wednesday, April the 8th, A.D. 1931 at the hour of 12:00 o'clock noon, the following property, namely:

Section Twenty-seven (27), Township Forty (40), Range Twenty-five (25), West of the Fourth (4th) Meridian, containing by admeasurement Six Hundred and Forty (640) acres, more or less. Excepting out of the West Half (1-2) thereof all coal.

Terms of sale to be ten per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances, save: A prior Mortgage in favor of The Canada Life Assurance Company on which the amount owing as at the 29th of February, 1931, is the sum of \$7,434.06. This Mortgage bears interest at 7 per cent. per annum, and falls due on the 1st day of February, 1932. (This mortgage is now in arrears), and taxes for the current year.

The vendor is informed that the above property is situated about three and one-half miles from Chive, where the nearest school is situated. The nearest grain elevator is at Chigwell, three miles distant from the land. The land consists of 12 inches to 24 inches of black loam with a deep sub-soil of clay.

The land contains approximately 640 acres of which 380 acres are under cultivation. Another 250 acres can be broken. The land is all fenced with three wires. There are two wells on the land.

The following buildings are erected on the land: Dwelling, 16x18 and 12 x 18. Bunk house. Barn. Granaries, 4.

For further particulars and conditions of sale, apply to Messrs. Newell, Lindsay, Emery & Ford, Barristers, Canada Permanent Building, Edmonton, Alberta.

DATED at Edmonton in the Province of Alberta this 9th day of March, A.D. 1931.

Did This Ever Happen to You?

READ WHAT EDMUND ENGLISH FOUND OUT ABOUT G. W. G. STOP-LOSS POCKET OVERALLS

Here is his letter.

Fleet, Alberta, May 8, 1930
The Great Western Garment Co., Edmonton, Alberta.

Dear Sirs:

I am writing to tell you how your G.W.G. Overalls have saved me time, money and worry since I have been wearing them.

I can recall, just many years ago, I wore, as well as all the rest of my farmer neighbors, just the ordinary everyday kind of overalls.

Whenever any of them saw me buying a new pair of pants, they would say, "I am always losing my pants out of my pocket too." We all agreed that there were many more pants lost than worn out.

Last fall I helped operate a combined harrow and, as I was with me all the time a six-inch green wreath as well as a pair of pliers, carrying both in the stop-loss pocket of my G.W.G. overalls. I didn't lose either one all fall, and when working around a combine a man is in a different position every day. A fellow can tighten almost any bolt with a wrench and a pair of pliers, so when I could carry both right with me, without danger of their slipping out of my pocket, I saved time and consequently made more money.

In the summer-time I just wear a pair of overalls and as I have to carry my watch in the watch pocket of the overalls I always used a safety pin to keep the watch pocket closed until I got my first pair of G.W.G. Stop-Loss pocket overalls. I have never had my watch slip out of that pocket yet, but when a fellow would it out, he can easily take it out.

G.W.G. Overalls are going to be my overalls from now on, the tools I buy to carry with me will be with me when I want them.

Yours truly,
EDMUND ENGLISH.

G.W.G. Union Made Overalls—Shirts—Pants—Machinew and Leather Jackets for men and boys are obtainable from most good stores. If your dealer cannot supply you write direct to the Great Western Garment Company, Limited, Edmonton, Alberta giving his name.

THOROUGHBREDS have both beauty and pace... and certainly the 1931 Pontiac. Six qualifies on these counts!

This fine car has the sleek grace of a blooded horse... indeed it has a beauty and luxury much greater than its low price implies.

Large, spacious Fisher Bodies are tastefully upholstered in rich fabrics. They are carefully insulated against cold and noise. Rubber insulation at 43 chassis points smother noise and vibration, absorb shocks and eliminates many bothersome points of lubrication.

Then, too, you will find the 1931 Pontiac easy and comfortable to drive. It's a real thoroughbred, easy to manage, eager to obey. The famous 60 horsepower motor has speed for acceleration and speed for steady going... and either kind comes easily, quietly and economically.

Put this car through its paces yourself. Consider its value... General Motors value, easy to buy through GMAC, General Motors' own, time payment plan, with the lowest rates available. Your complete and continued satisfaction is pledged by the General Motors Owner Service Policy.

Must Probe the Co-operatives

During the debate on the budget in the Alberta Legislature the question of co-operatives was very much in the fore. Mr. Howson, Liberal, Edmonton, dwelt at considerable length upon the present financial condition of rural co-operatives, and demanded a full investigation, in order to protect public moneys now vested in these organizations. A house vote supported a Conservative amendment to Mr. Howson's motion, with the result that the question has been referred to the Public Accounts Committee.

Since that time strong sentiment has evidenced itself in favor of a thorough investigation into the matter. Wisdom and fairness demand that such an investigation be made—wisdom indicates that it would be in the interests of the government, the co-operatives involved, and the public to institute a probe that would lay suspicions, fairness demands that if there "is something rotten in the state of Denmark," the opposition and the public are entitled to learn what that something is.

Mr. Howson claimed that the affairs of co-operative credit societies were in many cases in a "terrible mess." Dealing with the Provincial Auditor's report, he pointed out that the government had guaranteed co-operative credit societies in the province to the amount of \$1,760,390 at November 30, 1930, that of the loans made to the societies, \$204,651 was considered by the author to be "had debts"; \$279,939 "doubtful" and \$368,455 "tied up and slow." He charged that officials of some societies had been incompetent and irregularities had appeared in their records; in some cases secretaries had objected to the audit; in others no applications could be located for loans advanced, and that there was no record that the money had been spent by borrowers for the purposes specified in applications.

It is a sweeping denunciation, and, if there is a reasonably strong suspicion that it is justified by conditions, the argument that an investigation would involve unnecessary expense is almost ludicrous.

Other arguments advanced by the government against Mr. Howson's proposal are illuminating.

Mr. A. G. Andrew's U.P.A., Sedgewick, claimed that it would be unfair to make an evaluation when values of land and of all agricultural products were at their present low levels. He did not consider the possibility that the investigators could make allowances for such low levels. He suggested that amendments to the Co-operative Credit Societies Act, providing for larger sinking fund reserves to take care of possible losses, would obviate the necessity for a probe. How these amendments would reveal whether or not serious irregularities existed in connection with co-operatives, or how to eradicate such irregularities if they did exist, Mr. Andrews neglected to mention.

The Honorable R. G. Reid, Provincial treasurer, declared that the various co-operative societies within two years "can pull out of the condition in which they find themselves more quickly than they got into it." This is a generalization which can hardly appeal to business men. The auditor

has labelled certain government loans as "bad debts." In his appraisal he must have taken into account recuperative powers of the organizations. "Bad debts" means only one thing.

Mr. Reid also pointed out that the auditor's account indicated there are localities in which societies are functioning well. It would be strange if it didn't. As an argument against investigating suspicious cases, if it were intended as such, this is irrelevant. As well might the captain of a sinking vessel, on being told that there was a hole in the stern, state cheerfully that there were no holes in the bow.

Mr. Reid stated that it would be unfortunate if any action were taken at the present time which would weaken the morale of the people on the land, and lessen the government's chances of repayment from those who have every intention of meeting their loans. Perhaps Mr. Reid does not realize that the purpose of the investigation would be to strengthen the morale of the people on the land, by removing the uncertainty which suspicion brings, and to increase the government's chances of repayment of loans from all sources.

Premier Brownlee declared that Mr. Howson had not presented a true picture of affairs. Actual trading operations of the societies, he maintained, did not affect the status of the government's guarantees. He neither disputed nor explained Mr. Howson's figures. He felt that many, but apparently not all of the present difficulties of the societies were due to economic conditions.

Mr. Hugh Farthing, Conservative, urged that the matter be referred to the Public Accounts committee, and his amendment was passed. Yet not one effective argument against holding an investigation was made in the house. No one disputed Mr. Howson's figures. The points he made were sidetracked.

This action has removed any vestiges of doubt as to the urgent need for an impartial and thorough investigation.

TOLL OF ACCIDENTS

A booklet, issued by a United States insurance company, provides some remarkable contrasts, and brings into new prominence the question of traffic thoughtlessness.

The number of persons killed in accidents in the United States during 1930 was 32,500; the total injured for the same period was 962,325. During the 18 months of participation in the Great War by the United States army, 50,510 men were killed in action. In the 18 months ended December 31, the number of United States civilian killed by accidents was 5,000.

Because war casualties occur in approximately the same areas, are tabulated shortly after they have occurred, and receive peculiar publicity, their significance is usually much more widely appreciated than that of accident fatalities. Yet the total of the latter is shown in this booklet to be appalling.

The purpose of the company was evidently to draw the attention of the public to the need for adequate protection against accident—not entirely altruistic, but nevertheless useful.

VICTOR A. TATTON of

Indian Head, Sask., writes
this interesting letter about
Stop-Loss Pockets. He says:

Indian Head, Sask.,
April 24, 1931.
The Great Western Garment Company,
Edmonton, Alberta:
Dear Sir:
While buying the first pair of your
G.W.G. overalls two years ago, I figure
I have saved nearly \$50.00 in time,
money and time. I used to buy a new
waist or pair of pants every few weeks
only to lose them again out of the old
style pockets.
Going to town one day in the car I
had to get out to fix it and in my
pockets my pants and trousers were
gone. I had to walk back a mile to a
neighbour and borrow a pair and lost
nearly an hour on the road. Lots of
times I have put money in my pockets
only to find when I wanted it that it
had been lost out. I have dropped my
wood saw watch out of the old pockets
and broke watches and also springs in
the stem and one time broke up all the
jewels. After I would lose the pair I
would have to come in out of the door
of where I was working and hunt around
for more and probably wouldn't find any
after losing hours of time. My neighbour
said, "Why don't you get overalls like
I have, G.W.G." The next time I went
to town I certainly bought a pair and
have not lost a single pair of pants or
a tool since or broke my watch or lost
any time.
I would never be without G.W.G. Stop-
Loss Pockets overalls. I think they will
be cheap at double the price as they
were not lost a single pair of pants or
overalls and are so much roomier.
I will always recommend your G.W.G.
Stop-Loss Pocket Overalls.
Yours very truly,
VICTOR A. TATTON.

some time a few years ago while he
was a student in the ministry.

Don't forget the old time Church
Social to be held in the Church Hall
on Friday evening, March 27th. It
is sponsored by the Board of Man-
agers of the United Church, who pro-
mise a good time to everyone. Ad-
mission is free, so come and enjoy your-
self at a real old-fashioned church
social.

"The Deacon Silpa" by Fairview
Dramatic Club in Church Hall on
the 18th, was well presented and the
various players deserve a great deal
of credit for the very capable man-
ner in which they acted. We want
to thank Mr. Hearnsey for arranging
the light fixtures and the Lacombe
Furniture Store for kindly lending
the furniture for the stage.

Hail gentle Spring? Last night
the thermometer reached the lowest
point registered this winter when it
went down to 24 degrees below zero.
The lowest temperature reached pre-
viously to last night was 10 degrees be-
low zero. These robins, butterflies,
gophers, etc., must have received the
surprise of their lives.

Will the parties who are known,
who removed the flash light and other
articles from coats at Spruceville
Hall, during the Play on Friday
night, return the same to Leslie
Boden or O. S. Young by mail or
other way, before action is taken.
Make it snappy, as this is no bluff.
Hall Management, O. S. Young,
President

We have been favored with a call
from Mr. Clifford Sifton Bisset who
is now on furlough in Canada. Mr.
Bisset was sent to Africa some four
years ago, as Trade Commissioner for
Canada. He is a graduate of the
University at Edmonton. He informs
us that trade relations have greatly
increased between Africa and Canada
during his regime. His next field
of labor will be in Peru, South Amer-
ica. He sails from New York on
April 15th for Lima Peru. He has
mastered the Spanish language, also
five other languages, which he must
know. Mr. Bisset is a nephew of
E. T. Munster, of Lacombe.

Elite social events of the season
were brought to a conclusion on
Tuesday evening at which time the
last dance of the Assembly Club was
held. Assembly dances this winter
have been held under the auspices of
the Ladies' Golf Club, under the
management of Mrs. F. D. Locke,
President, and Mrs. J. S. McCormick,
Secretary. An outstanding feature
of the five affairs has been the de-
corations which under the super-
vision of Mr. A. G. Allen, faithfully de-
picted in colors and emblems the oc-
casion upon which each dance was
held. The Ladies' Golf Club are
well pleased with the success of these
events and hope to be able to insti-
tute a social membership in their club
during the coming season.

Out of town guests attending the
St. Patrick's Eve Assembly dance
were Mr. and Mrs. H. Tye, entertain-
ed during their stay in Lacombe by
Mr. and Mrs. F. E. McLeod; Mr.
and Mrs. Taylor of Red Deer, enter-

tained at the home of Mr. and Mrs.
Jack Russell; and Mr. and Mrs.
Humphrey Parilly.

LINCOLN NEWS

Please keep in mind a dance in
Lincoln Hall on Friday, March 28th.
Blue Bird Orchestra will provide the
music. Everybody come. Admission
Gents 50c. Supper extra.

AGAIN LACOMBE CATTLE BRING HONOR TO DISTRICT

Alberta is still on top at Eastern
Shows, and Robt. McKenzie received
the following news from Regina, The
Horseford entered by McKenzie Bros.
shown at Regina won in the singles:
1 First prize; 4 Second prizes; 5
Third prizes; 2 Fourth prizes; 1 Fifth
prize; 3 Sixth prizes. They won
against one lead in particular which
was champion lead at Moose Jaw.
Feeder Show last fall and cost 1-2
cents. It pays to use good bulls.
These steers were sired by Collicut
bulls and Wilson bulls.

PIONEER RESIDENT OF RIMBEY DIES

Rimby, March 25.—One of the
oldest residents of this district, E.
B. Sisty, 74 died at his home here
on Saturday. He came to the district
in 1902 from Nebraska in order to
take up land in the northwest. He
settled at Springdale, 15 miles north-
east of Rimbey, where he farmed on a
large scale until 1926, when he re-
turned from farming and moved into
town. He was active in public and
church affairs.

Funeral services were held at the
United Church on Tuesday, Rev. J.
Bartram officiating.

2nd ANNUAL VIMY DINNER

2nd Annual Vimy Dinner will be
held on April 9th, at the Adelphi Hotel.
All ex-service men and their
friends are heartily welcome.

Good dinner, good speakers, good
music, good songs and a real good
time. Tickets to be obtained from
Thos. Wilkes, Atlas Lumber Co.; Ad-
elphi Hotel and Post Master or any
member of the Executive. Price 75c.

LEST WE FORGET CLUB DANCE

It is a well known fact that the Lest
We Forget Club dances are among
the main events of the season. They
are holding a dance on Easter Mon-
day, in the Comét Theatre, and this
dance will be a good one. The money
that is made from these dances is
used in connection with their park
and other worthy causes. You all
should make it a point to attend and
support the Club in this enterprise.
Music for the occasion will be sup-
plied by the Lacombe Star Orchestra
and they promise the latest and best
in dance music. "The hall will be
in warm, comfortable and the floor will
be in good shape. Do not miss this
event."

DEATH OF MRS. W. MEYER

We regret to announce the death
at Los Angeles, California, on Sun-
day, March 15th of Evelyn, wife of
Walter Meyer, of Los Angeles, former-
ly Evelyn Westling, of Clive Al-
berta, after a very brief illness.

The body was brought to Clive,
services being held in Los Angeles
and in the Swedish Lutheran Church
at Westling, where the burial took
place.

Deceased was only 26 years of
age, and leaves to mourn her loss a
loving husband, mother, three sisters
and two brothers.

Many lovely floral tributes were
received from Los Angeles and local-
ity.

Rev. H. O. Miller, of Wetaskiwin,
officiated.

Mr. Woody, of Lacombe attended to
the funeral arrangements.

CARD OF THANKS

We wish to heartily thank all our
neighbors, relatives and friends—
those who so kindly assisted us in
any way during our sad bereave-
ment; also for the words of sym-
pathy and the many floral tributes re-
ceived.

Mr. Walter Meyer;
Mrs. Ann Westling and Family.

BALDWIN WILL HANG

Calgary, March 26.
Rejecting an insanity plea, a Su-
preme Court jury, after 50 minutes
deliberation, brought in a verdict of
"guilty" in the murder trial of
Frederick Baldwin, age 26 years,
charged with the Christmas Day
shooting of Miss Maud Laul, at 5
o'clock Wednesday afternoon.

Mr. Justice A. F. Evans pronounced
the death sentence, and ordered
Baldwin to be taken to Lethbridge
and there kept in custody until
June 10, when he will be "hanged
by the neck until dead." On this
date Mike Radko and Bertram Jones
were hanged for the murder of
William August of Ernest Mid-
winter.

THE CHURCH OF ENGLAND
IN CANADA
St. Cyprrian's Church, Lacombe
Rector: Rev. T. H. Chapman

March 28, Palm Sunday
10:00 a.m. Sunday School.
11:00 a.m. Holy Communion.
7:30 p.m. Evening Prayer.

Wednesday, April 1st
4:15 p.m. Children's Service.
8:00 p.m. Special Lenten Service.
It is now definitely known that it
will be impossible to have the choir
vestments in time for Easter. How-
ever, the new choir stalls will have
been placed in the Chancel and choir
will be seated there on Easter Sun-
day. There will be some special
music on Easter Sunday.

CAVALON

Thursday, Friday, Saturday
This Week
"THE BIG HOUSE"
Convicts riot in ruthless, desper-
ate bids for freedom. Guards over-
powered and held as hostages; peni-
tentiaries turned into battlefields in
their mad efforts to escape their
prison cells. Glorious romance that
struggles for its very existence in
these moments of mad frenzy! Nothing
so timely, so soul-stirring has ever
before reached the talking screen!

Pandemonium in the great peniten-
tiary; 3,000 convicts riot, reckless,
desperate men making a last stand
for escape. Every tense moment a
heart throb because you know that
one among them has found that life
can be sweet and glorious with the
one he loves. Romance and drama
you will never forget.

IN MEMORIAM

Gabriel Artis Attrell,
who died March 29th, 1929
Where the Light forever shineth,
Where no storms ariseeth more;
There the Saviour meets His loved
ones
On the Shore.
They no thirst, nor suffer hunger—
All their tears are wiped away.
Night has passed and they have
entered
Endless day.
Grant that we with him, Thy loved
one,
Whom by faith we still can see;
May when life's great morning
dawneth,
Be with Thee.
Ever remember, ever loved, by
Wife, Children, Father, Mother,
Brothers and Sisters.

ALLEGED FARMERS HARSHLY TREATED BY RURAL BANKS

Harsh treatment of farmer credi-
tors by country banks was reported
to the agricultural committee of the
legislature Friday, in evidence given
by Hugh Critchlow and Joseph Mes-
ner, of Barrhead. Mr. Critchlow re-
ported being asked by a man in his dis-
trict who was asked for security of
\$50,000 for a loan of \$500, and de-
clared that banks were demanding
mortgages before giving credit.

According to Mr. Mesner, the bank
had asked for a mortgage on a
half section of land for a debt of
\$1,100, and had refused to accept the
stand of the debt adjustment bureau,
so he was compelled to give a mort-
gage on his land.

This, the witness testified, was in
line with the general attitude of
banks in the district. Their evidence
bore out to a great extent that some
time ago before the committee
of J. L. Fawcett, of MacLeod.

The Alberta Farm Loan Board
will not force collections this year
in average good cases, stated James
C. Murray, chairman of the board.
Chattel mortgages will, however, be
taken in some cases and crop liens in
others, to cover outstanding loans.

Forty per cent. of loans were in
arrears, said Mr. Murray, but col-
lections, in his opinion, were fairly
good, considering economic condi-
tions, and 60 per cent. of the instal-
ments, due November 1 last, would
be paid up by the end of the present
month, he thought.

The board, he continued, was will-
ing to carry borrowers and to ad-
vance them seed grain in needy cas-
es, security for which would be taken
in the form of first mortgages.

CHURCH WORKERS KILLED

Peiping, China, March 16.—Mrs.
Vera Moser White of Battleground,
Wash., and Mrs. Victoria Marvian
Miller, whose mother lives at 1106
East Olympic Avenue, Spokane,
Wash., were slain in their sleep Sun-
day night at Yunnanfu.

They were missionaries of the Sev-
enth Day Adventist Mission.
The crime was attributed to Chi-
nese servants at the mission who had
been discharged. The husbands of
the women had gone on business to
Tulufu, 15 miles away.

A message to the United States
Legation here from Consul Harry
Elevens brought word of the killings.
The skulls of both women had been
fractured by hatchets. Two children
of Mr. and Mrs. White were not in-
jured.

Remember the Baptist Ladies' Aid
Tea, Sale of Work, Baking and Can-
dy to be held on Saturday, March 28,
from 3 to 6 o'clock in the Paisley
Building.

Champions Defeat Falcons

It was a great game on Saturday night last when the Intermediate Champions played against a team composed of ex-intermediate and Lacombe High School students. Although the score was 9 to 3 and does look awful one-sided, the territorial play was about even and the losing team played real hockey. It was not by any means the cinch that the score indicates. The first period was undoubtedly in favor of the ex-intermediates, who scored goal for goal with the Champions and on two occasions had the lead. The second and last periods were, however, not so good, as the less-practiced ex-intermediates and high school boys were showing the effects of the fast pace set by the Champions. The outstanding players on the ice were Boyd Caruthers for the losers and Brooks for the winners.

The first goal in the game was scored by Pete Danner for the ex-intermediates, and from then on the Champions put all they had into the game, and shortly afterwards evened the score. It looked like anybody's game this period and before the period ended Kuhn for the ex-intermediates slapped one in and put the losers on top. This tally was soon, however duplicated by the Champions and the period ended with the Champions one goal up on the ex-intermediates.

From the opening bell of the second stanza, the winning team played like fiends and broke through for shot after shot on Todd, who turned many shots away. But he was unable to stop them all. In this period, Claude Halpin broke through for a shot and put the tie behind the Champions' goal keeper in a pretty shot from close in. This put the two team again even. The tie, however, was short-lived and before long the Champions started their hard shooting, which gave Todd no chance to save. Brooks, for the Champions led the scoring getting 6 goals. The final score was 9 to 3 in favor of the Intermediate Champions.

Considering the heavy scores in the Intermediate Playoff this year, the losing team has absolutely nothing to be ashamed of. It will be remembered that the Lacombe Intermediate Champions beat Blairmore by a total score of 13 to 1 only to be beaten by Canmore by a total score of 11 to 2.

There is no doubt in the minds of many but that the team that played the Champions on Saturday would give many intermediate teams in the province a good run for their money. On many occasions in Saturday's game

the intermediates were saved by the great work of McCurley of Stettler, who was between the posts of the Champions. He stopped many dangerous shots. Edgar Todd, who played goal for the losers turned in a great game, but lacked the experience of McCurley. We venture to say that in another year, Edgar will be equal to anything in the Province. The rest of the boys on the challengers need only a little more weight and experience and they will equal anything that has been shown here this year.

Claude Halpin, Oscar Kuhn and Boyd Caruthers, three of the youngest men on the ice played wonderful hockey, and proved beyond the shadow of a doubt that they were made of the right stuff. Pete Danner, Claude Halpin, Oscar Kuhn and Hembury, Bob McCaugherty, Gordon Craig and Frank Raymond all demonstrated that they could play the game with the best of them. A year will make a wonderful difference in many of these boys and they should stay together as a team, as many of them have played together since they were with Barney Halpin's Midgets, and thus know each other's style of play.

MANITOBA TAKES NO ACTION 100 PER CENT POOL

Winnipeg, March 21.—Legislation to enable formation of a 100 per cent pool for grain in Manitoba will not be brought down at the current session, declared Premier John Bracken in expressing the intention of the ratification bill on wheat pool guarantees, but discussion was adjourned.

The future of the Manitoba Wheat Pool and possible disposition of the government's liability for the pool was the subject of a long and heated debate in the Manitoba legislature. The alternatives were quoted as whether or not to alter the present management of the pool; and whether to re-organize the elevator policy. Control by a government-named commission of the elevator was mentioned as a possibility.

Explaining the difficulties of a 100 per cent pool at this time, Mr. Bracken said:

"A system, however desirable, to which any considerable section of the people affected takes violent ex-

ception would be not only difficult to establish, but when established would contain the seeds of future disruption.

"A 100 per cent pool in Western Canada, were it acceptable to a great majority of people, might, if efficiently managed, possess some advantages under the present conditions of the world wheat trade. But to obtain it Saskatchewan would have to favor it, Alberta would have to favor it, and Manitoba would have to favor it, and it is possible, if recent court decisions have any direct bearing on the matter, that the Dominion government would have to favor it as well."

THE PROBLEM OF UNEMPLOYMENT

Speaking in the Senate on Wednesday, Hon. Gideon Robertson, minister of labor, said that the system of joint unemployment relief adopted at the special session of parliament last fall had produced beneficial results. It had resulted in \$60,000,000 being subscribed by the Dominion, the provinces, municipalities and railways to provide work and relief.

The minister has every right to be satisfied with the manner in which he administered the plan and the co-operation he received from all sides. Conditions would have been much more serious throughout the country if such action had not been taken under the leadership of the federal government.

But it must be evident to him as to everyone else that the problem of unemployment has not been solved. It is still here and pressing for permanent solution. Spending millions of money of direct relief and on work, much of which would, under normal conditions, be done in the future, is a system meant only for a national crisis. It is not a permanent, economic method.

CATTLE FOR GREAT BRITAIN

Cattle exporters and those in close touch with the cattle raising industry in Ontario and the West estimate that at least between 15,000 and 20,000 head of cattle will be exported to Britain this summer.

TRAIN WRECK KILLS 6

Leighton Buzzard, Eng., March 21.—Three passengers and three of the train crew were killed Sunday when the Royal Scot Express of the London, Midland and Scottish line, one of the fastest and finest trains in the world, left the rails near here and piled up along the track.

At the meeting of the M.D. Crown held last week, Mr. Wm. Parker was elected Reeve for the ensuing year.

Here and There

The lobster season along the Nova Scotia coast is now in full swing. It is estimated that at least 400 fishermen are engaged in the industry and that the number of traps will likely reach 200,000 or more.

The dining saloon of the new 42,500-ton Empress of Britain, known as "Salle Jacques Cartier," is the largest unpillared room on the five oceans. It was decorated by Frank Brangwyn, R.A.

As a tourist centre Cape Breton enjoyed one of the best seasons in its history during 1930. During the year 246 automobiles were handled across the Strait of Canso as compared with 2,657 for the previous year.

Vancouver will have the honor of welcoming a reigning monarch when King Prajadhipok of Siam and his consort, Queen Rambhai, arrive here April 17, aboard Canadian Pacific liner Empress of Japan.

One of the largest and most courageous engineering undertakings on the continent is proceeding at the Athabasca Canyon, Alberta, near Cochrane, Northern Ontario, where a plant is being built to generate 250,000 horse-power at a cost of over \$20,000,000.

"British steel for Canadian produce," is the slogan lettered on massive shafts unloaded at Saint John recently for shipment over Canadian Pacific Railway for use in hydro-electric development plants at Beauséjour, Quebec, and in the valley of the Ottawa River.

France should prove an excellent market for Canadian wheat since she has not committed herself to regulated purchases of wheat from Central European countries, said Hon. C. A. Henry, French Minister to Canada, interviewed at the Windsor Station, Montreal, on his way to present credentials at Ottawa.

Relayed to twenty-two stations between Quebec City and Victoria by Canadian Pacific Telegraphs the speech of the Prince of Wales, opening the British Trade Fair in Buenos Aires, was clearly heard across the Dominion. The broadcast was brought to Canada direct from Buenos Aires by the short wave beam system of the Canadian Marconi Company.

What the Ice Age looked like, millions of years ago, is clearly pictured in the great Columbia ice field, extending for hundreds of miles to the Rockies, and easily accessible from Lake Louise, said Walter L. Payne, in a recent lecture entitled, "On Horseback to the Glacial Age." The field extends in the form of glaciers to three sides from which mighty rivers run to the Arctic, Pacific and Atlantic oceans.

Cleaning, Pressing and Repairing, Promptly Done.

RUSSIA ACTION AROUSES SUSPICION

The Soviet authorities have refused to allow a representative of the Canadian Press to make a survey of economic conditions in Russia, and more especially of wheat production. Canadians may draw their own conclusions from the incident. It is inconceivable, for instance, that the Canadian government would not permit Soviet emissaries to study Canadian methods of raising wheat. This country has nothing to hide. Its economic progress is open to the widest inspection. The United States and other foreign countries are thoroughly conversant with conditions here. They are in a position

to check up and challenge if need be, any trade reports issued by the Dominion government. Canadian trade statistics are open to world inspection.

A few years ago agents of Soviet Russia visited Alberta for the purpose of buying horses. No surveillance was attached to their movements. They were free to go where they would and to discuss matters with anyone they chose.

The Russian refusal lends support to a view somewhat generally entertained that conditions in that country are not quite so satisfactory as Russian official propaganda represents. If everything is as claimed in Soviet literature now being distributed throughout the world, it is

hard to see why Stalin and Company object to a Canadian survey. On the other hand, their objection suggests they have much to hide from the outside world. No other reasonable construction can be made. If their refusal had been due to resentment over the Canadian ban on imports, nothing could have been simpler than to say so. This they omitted to do.

The price of gasoline in Canada has gone down steadily since the establishment of the protective tariff on the products of the Canadian oil refineries. This must be a phenomenon to the western free traders.
